

Daniel A. Horowitz

Collaborative Executive Leader Business Partner & Solutions Manager

Building Lasting Software Organizations That Enhance The Customer/User Experience

845-837-9679 • 16 Mercury Ave., Monroe, NY 10950 • me@danielahorowitz.com

With 19 years of expertise in software development and management, I have had the pleasure of assisting in the success of many industries. Passionate about what I do, I remain on the cutting-edge.

Logical thinker and strong communicator, praised for thinking out-of-the-box, transforming global, enterprise-wide infrastructures. With my leadership, ideas have been realized, managed, and executed. Established successful companies from the ground-up. Developed my own CMS framework that is profoundly faster, cleaner, more secure and customizable than any other; utilized on all major systems.

Specializing in Enterprise Applications, with a focus on metrics and user experience; utilizing OOPHP, Javascript, HTML5, CSS3, modern libraries/frameworks and Agile best practices. I have done work ranging from building a full medical software suite for Pro Motion; a physical therapy practice, providing programming assistance to Ken Segall: former Creative Director of Apple.

Experience

KoniKode, Tech. Consultant - Enterprise software development company, Jan '11 to Dec '16

- Providing web, mobile, desktop and embedded solutions for enterprise and small business.

President/CTO - Sep '12 to Dec '16

Founder - Sep '12

Blue Core Studios, Lead Developer - Film and Television Production Company, Jan '05 to Jun '15

- Designed, developed and initially maintained as a sole developer the entire web presences.
- The website is running on my own proprietary CMS, Blog and Shopping Cart.

President - Jan '05 to Jun '13

- Lead the company to be a recognized brand by over 10 million viewers worldwide.
- Created a camera equipment rental program to facilitate self-funding, resulting in the quadrupling our ROI.
- Handled contract negotiations.

Co-Founder - Jan '05

QuickWit, Technical Consultant - Web Development Company, Aug '14 to Nov '16

- Providing expertise and management for Web/Application/Mobile Development projects.

DreamzTech, Technical Consultant - Enterprise App. and Web Dev., Jul '16 to Present (consult)

- Providing expertise and management for Web/Application/Mobile Development projects.

CZ Collections via QuickWit, Lead Developer/Architect - Wholesale Jeweler, Mar '16 to Aug '16

- A custom application integrating order management and logistics of various online retailers; ie., Overstock.com, MobStub...; utilizing a custom integration of Jewels 2000 (FoxPro App.) and ShipStation. With the amount of data that had to be process and sanitized we hit the realm of big data (10GB of RAM was required). Running hundreds of thousands of operations on a single dataset. Finding a way to process "big data" with minimal resources, into MySQL.

FitMi, Lead Developer/Designer - Fitness App. (iOS, Android), Oct '14 to Aug '16

- Designed and developed the entire infrastructure, while leading a multinational team of 13.
- Implementing both a custom RESTful API and web-services.
- Handled contract negotiations and policy definition.

GroupDate, Lead Developer/Designer - Dating Platform, Nov '14 to Mar '15

- Developed the entire web presence and image; running on my proprietary CMS.

Measupro.com, Lead Developer - Scale Retailer, Apr '15 to Aug '15

- Created a custom implementation of WordPress, utilizing WooCommerce Ecommerce platform and many more features.
- Developing a custom method with CSS zoom for the adaptation of high resolution screens to automatically enlarge the site to perfectly fit the display. Eliminating any odd scaling of CSS zoom.

KenSegall.com, Senior Developer/Designer - Former Creative Director of Apple, Feb '12 to Mar '12

- Updated, repaired and refined current WordPress CMS.
- Contracted by Ken Segall, is the former Creative Director of Apple Computers.

Pro Motion Physical Therapy, Lead Developer/Designer - Medical Practice, Feb '06 to Sep '07

- A platform was created to handle all management and billing aspects of running a physical therapy practice; utilizes proprietary CMS framework.

Work Samples

CZ Collections - (access upon request)

- A custom application integrating order management and logistics of various online retailers, ie., Overstock.com, MobStub...; utilizing a custom integration of Jewels 2000 (FoxPro App.) and ShipStation. With the amount of data that had to be process and sanitized we hit the realm of big data (10GB of RAM was required). Running hundreds of thousands of operations on a single dataset. Finding a way to process "big data" with minimal resources into the Web App with a connection to MySQL. Utilizing: PHP, MySQL, FoxPro, Visual Basic, XML, JQuery, CSS, HTML, IIS, CentOS, Windows Server

Measupro - <http://www.measupro.com/>

- Developed as a Senior Developer the entire web presences from the ground up. The website is running WordPress and the WooCommerce Ecommerce plugin. Developing a custom method with CSS zoom for the adaptation of high resolution screens to automatically enlarge the site to perfectly fit the display. Eliminating any odd scaling of CSS zoom. Utilizing: WordPress, PHP, MySQL, JQuery, CSS3, HTML5 - Designed by Measupro

Blue Core Studios - <http://www.bluecorestudios.com/>

- Designed and developed as a sole developer the entire web presences from the ground up and have been maintaining their website for them since it was first launched. The website is running on my own proprietary CMS and my own proprietary Shopping Cart. Utilizing: PHP, MySQL, JQuery, CSS3, HTML5
